

Gyndolomiti

8th Congress on
Gynaecology and Obstetrics

January 30 – February 4, 2022

St. Kassian / South Tyrol

Introduction

Dear Sir or Madam, dear Colleagues!

We cordially invite you to the 8th "Gyndolomiti" training conference.

Hopefully 2022 with joy and security to "Gyndolomiti" in South Tyrol

Unfortunately, the event will take place without Prof. Feichtinger. After a long and serious illness, he passed away in June 2021.

After the last conference in 2020 a new situation has arisen: everyday life has changed massively. However, conferences are now important platforms for exchanging information and knowledge. The situations became worse in autumn 2020, this was the reason for our decision to postpone the 2021 congress to 2022. Since responsibility towards our conference guests is our top priority, we obtained detailed information from our local partners and developed a comprehensive "Clean & Safe Concept" which is also guilty for 2022.

The conference center in St. Kassian will be cleaned twice a day, "physical distancing" in the hall will be ensured by a given seating arrangement. The Hotel Fanes has developed a strict, 11-point "Clean & Safe Protocol".

The main topics of the conference include fetal heart diagnostics, breast surgery and other topics in gynecology, endocrinology, non-invasive prenatal testing and prenatal obstetric sonography and Covid-19 in obstetrics and pregnancy.

As in previous years, there is again the opportunity to participate in workshops in small groups of 10 people.

The program is again submitted for CME credits.
Hoping to see you in San Cassiano,
on behalf of all co-organizers

PDDr. Michael Feichtinger
Univ.-Prof. Dr. B.-Joachim Hackelöer

The conference is under the patronage of the Federal Gynecology and Obstetrics Group of the Austrian Medical Association.
