

# Gyndolomiti

9<sup>th</sup> Congress on  
Gynaecology and Obstetrics

February 5–10, 2023

St. Kassian / South Tyrol

## **Preface**

*Dear Sir or Madam, dear Colleagues!*

After we were able to organize a nice and successful conference in 2022 – under corona conditions – we were again able to win many excellent speakers from the entire field of gynecology and obstetrics for 2023 – and this, in the spirit of the deceased founder of the conference Prof. Wilfried Feichtinger, without industry lectures.

Standard procedures as well as new future-oriented diagnostics and therapies will be presented.

Most lectures and workshops take place as face-to-face events, however, some lectures will also be online.

As always, there will be enough time for discussions and personal conversations with the speakers in the stimulating environment of the Dolomites - which has a proven positive effect on the willingness to absorb knowledge.

Mrs. Yasmin Haunold will take care of all organizational matters in the usual manner.

In every respect, the organizational team is looking forward welcome expectant and receptive participants.

The program is again submitted for CME credits.

*Hoping to see you in San Cassiano,  
on behalf of all co-organizers*

*PD DDr. Michael Feichtinger  
Univ.-Prof. Dr. B.-Joachim Hackelöer*
